

Classroom News

Class 1

This week the children have been learning the phonemes 'r', 'h' and 'b'. They have also been sounding out and finger painting C.V.C words, using all the sounds that we have covered so far, to be displayed on our class 'sounds' board.

As part of 'Anti-Bullying Week', we have looked at books around this theme, including 'Monty the Manatee', 'Walk Tall' and ' Giraffes Can't Dance'. The children listened very carefully and came up with some very sensible ideas and suggestions about kindness, tolerance and friendship.

We have also been very busy learning Christmas songs and carols for our school church service. Copies of the words to be learnt have been sent home with the children, for parents to get involved if they so wish.

Class 2

This week, we have had another busy week! Not only did we all have a fantastic time at Local Curriculum and are all very excited for Children in Need tomorrow, but we have also been doing lots of work about Anti-bullying week! We have had class discussions about what the term 'anti-bullying' means and have increased our understanding on what we can do if we see that our friends are upset. We have also all contributed to a new class display about Anti-bullying week with drawings of ourselves on! Some lovely work this week - well done Class 2!

Class 3

In Maths, we have started a new topic on Area and Perimeter. We had a lovely time drawing and measuring squares on the playground. In writing we have begun a non-fiction unit and are looking at Monsters! We will be looking at Stonehenge in History soon. We have been very busy learning the words to our Christmas Carols in preparation for our Christmas Service in Church.

Class 4

We have been using strategies linked to addition and subtraction to solve various problems and calculations in Maths this week. Our English work has focused on identifying the subject and object in a sentence. We have discussed the importance of keeping safe after watching the NSPCC presentation with lots of important points being made. In Science we carried out work linked to how animals adapt to the environment they live in. Again, we had a great time on Local Curriculum Day and all worked well in our houses on the various activities and challenges. Carol Concert rehearsals have taken place and hopefully, everyone is trying hard to learn their lines and song words.
