

PICK AND MIX TIME AGAIN!

Make a family tree. You could do this on paper, on a screen or go 3D! Add photos and stories about each person.

Teach yourself to juggle or use two tennis balls to throw and catch against a wall. (It may be wise to try this outside!)

Make invisible ink using lemon juice and a few drops of water. Write a message by dipping a thin paintbrush (or a quill if you have one) in the magic ink and write a secret message. Place the message somewhere warm, maybe near a lightbulb or in the sun to reveal your hidden message.

Make a Lockdown time capsule. What would you put in it? Did you design a stamp or make up a song from last week's pick and mix suggestions? You could include these.

Make a target throwing game. Have a look in your recycling box and see what you can find to use. Make sure you take a photo of your invention.

Take the time to do something special for someone else. Perhaps you could write a letter or an email to a family member or friend. Or what could you make or paint for someone to make them feel happy?

Increase your vocabulary. Look in a dictionary and learn a new word each day. Make sure you can spell it and you know its meaning. Why not start with a word beginning with 'a' and make your way through the alphabet?

Use a pencil and ruler to draw some straight lines on a piece of paper. Draw as many or as few as you like.
What shapes have you made?
Colour all 3 sided shapes in one colour, then 4 sided shapes in another colour, or maybe you could cover them with a special design or pattern.
Which shape has the most sides?
Can you name each shape?
