

# Pick & Mix

## Number 2

*Find out the names of some rivers and know where they are on a map. You could find UK rivers, or maybe some of the rivers of the World.*

Good News!

Draw/paint a picture to share some good news that you have had. If you prefer you could write about it. Then share your good news with us in school.

Choose an animal, maybe one of Africa's Big 5! You could even invent your own animal that has features of other creatures. What could you call it?  
Could you draw or paint a picture..... or maybe do a collage.

Make some rhythm sticks. Find two sticks (hazel is good). Use a potato peeler to whittle them, but make sure there is an adult supervising you. Use them for your music rhythms on Thursday afternoons! You could play your rhythms outside in the garden.

Watch the weather forecast at the end of a news programme. Could you you're your own weather symbols and be a weather presenter?  
You could video yourself! Let me know how you get on.

Practical Maths.....

Weigh out some ingredients for a recipe and help to bake a cake or make a meal.

Keep Skipping

Challenge yourself to reach a harder goal

Find out about flags from around the world. Choose one to colour or paint. Make it fill an A4 piece of paper. If you send them to me in school, we could display them all in class.
