

Mathematics Medium Term Planning: Summer R/Y1

WK	Mathematical aspect	Non-negotiable end points	EYFS Curriculum	Y1 Curriculum
1	Addition and subtraction to 20	Know number bonds to 10 and 20. Understand the effect of zero. Find missing values using the inverse.	Knows that addition increases the quantity and subtraction reduces it. Knows and recalls number bonds for numbers 0-5 and for 10.	Knows how to represent and use number bonds and related subtraction facts within 20. Knows how to solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \square - 9$
				
2	Fractions: discrete and continuous wholes	Know how to find half/quarter of counted objects and whole objects or shapes.	Knows that objects can be halved into two equal parts.	Knows how to recognise, find and name a half as one of two equal parts of an object, shape or quantity Knows how to recognise, find and name a quarter as one of four equal parts of an object, shape or quantity
				

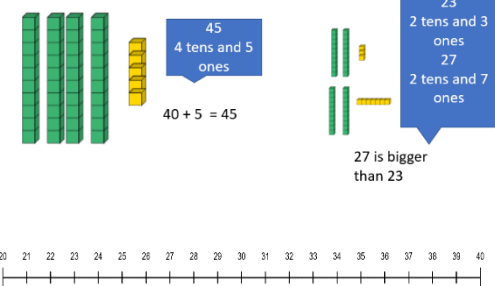

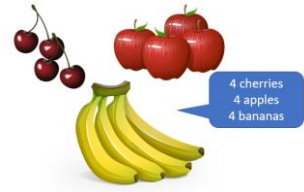

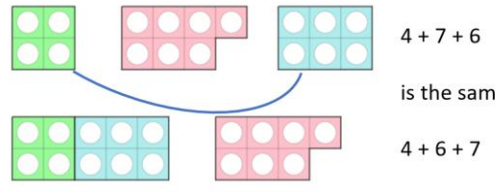

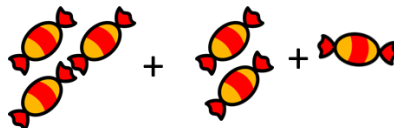

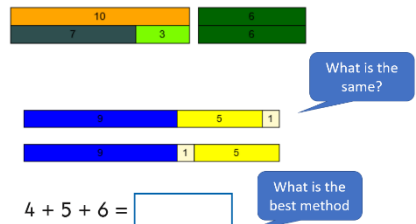

Mathematics Medium Term Planning: Summer R/Y1

	Mathematical aspect	Non-negotiable end points	EYFS Curriculum	Y1 Curriculum
3	<p style="text-align: center;">Multiplication & Division Arrays</p>	<p>Know that an array represents equal groups of. Know groups of 2 are even, groups of 5 end in 5 or 0, groups of 10 end in 0.</p>	<p>Knows that doubles are two groups of the same number. Knows that equal groups can be represented as an array.</p>	<p>Knows how to solve one-step problems involving multiplication and division, calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.</p>
				
4	<p style="text-align: center;">Measurement: time</p>	<p>Know that time passes in cycles. Know the features of the clock face: hands, 1 to 12 positions, half past and o'clock.</p>	<p>Knows that days of the week and the months of the year. Knows how to compare, describe time (quicker, slower, earlier, later).</p>	<p>Knows how to sequence events in chronological order. Knows how to tell the time to the hour and half past the hour and draw the hands on a clock face to show these times. Knows time as (hours, minutes, seconds).</p>
				<p>Which takes longer?</p> <ul style="list-style-type: none"> Eating my lunch or sleeping at night? Brushing my teeth or playing at break time? Drawing a picture of my family or jumping once? 

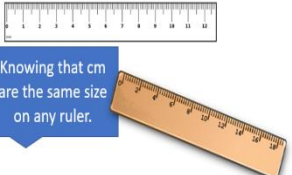

Mathematics Medium Term Planning: Summer R/Y1

	Mathematical aspect	Non-negotiable end points	EYFS Curriculum	Y1 Curriculum
5	Geometry: position and direction	Know how to describe the position of an object and move it to a new position on a grid.	Knows that objects can be placed in different locations.	Knows how to describe position, directions and movements, including half, quarter and three-quarter turns.
	 <p>Place three shapes in different positions on the grid. Describe them.</p> <p>Start quarter turn half turn</p>	 <p>The bear is the box.</p> <p>The bear is the box.</p> <p>The bear is the box.</p> <p>The bear is the box.</p>	 <p>Where will the shape be after a $\frac{3}{4}$ turn?</p> <p>Move the dog to the bones. How does the dog move?</p>	
6	Counting, ordering and comparison, visualising quantities	Count to 100 in 1s, 2s, 10s and 5s. Know the patterns of counting in 2s, 5s, and 10s	Knows how to compare sets of objects up to 10 in different contexts, considering size and difference. Can explore patterns of numbers within numbers up to 10, including evens and odds.	To count, read and write numbers to 100 in numerals, count in different multiples including ones, twos, fives and tens.

Mathematics Medium Term Planning: Summer R/Y1

 <p style="font-size: small;">Count in 1s, 2s, 5s, 10s</p>	<table border="1" style="width: 100%; text-align: center; border-collapse: collapse;"> <tr><td>2</td><td>4</td><td></td><td>8</td><td>10</td><td></td><td>14</td></tr> <tr><td>5</td><td></td><td>15</td><td>20</td><td>25</td><td></td><td>35</td></tr> <tr><td>10</td><td>20</td><td></td><td>40</td><td>50</td><td>60</td><td></td></tr> </table>  <p style="font-size: small;">4 cherries 4 apples 4 bananas</p>	2	4		8	10		14	5		15	20	25		35	10	20		40	50	60		<p style="text-align: center;">Count on in 2s</p>  <p style="text-align: center;">Count on in 5s</p> 
2	4		8	10		14																	
5		15	20	25		35																	
10	20		40	50	60																		
<p style="text-align: center;">7</p> <p style="text-align: center;">Addition and subtraction: trios and equality</p>	<p>Knows that more than two numbers can be added.</p>	<p>Knows the operation required and calculates using counting and known facts. Automatically recall number bonds for numbers 0-5 and for 10, including corresponding partitioning facts.</p>	<p>Knows how to add and subtract one-digit and two-digit numbers to 20, including zero. Knows how to solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems.</p>																				
 <p style="font-size: small;">4 + 7 + 6 is the same as 4 + 6 + 7</p>		 <p style="font-size: small;">4 + 5 + 6 = <input style="width: 50px;" type="text"/></p>																					
<p style="text-align: center;">8</p> <p style="text-align: center;">Geometry: properties of shapes</p>	<p>Know the properties of 2d and 3d shapes.</p>	<p>Knows the names of common 2d and 3d shapes.</p>	 <p style="font-size: small;">What is the same and what is different? Show the vertices on these shapes?</p>																				

Mathematics Medium Term Planning: Summer R/Y1

	Mathematical aspect	Non-negotiable end points	EYFS Curriculum	Y1 Curriculum					
9	Calculation: all four operations	Knows the operation required and calculates efficiently using known facts and efficient strategies.	Knows the operation required and calculates using counting and known facts including doubles. Understands number to 10, linking names of numbers, numerals, their value, and their position in the counting order	Knows how to solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems. Also, those involving multiplication and division with arrays with the support of the teacher.					
	<div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="border: 1px solid black; padding: 5px; width: 15%;"> Calculate $12 + 6 =$ $20 - 8 =$ $27 - 23 =$ $8 + 9 =$ </div> <div style="border: 1px solid black; padding: 5px; width: 15%;"> Find 2 groups of 7 16 shared equally between 2 </div> <div style="border: 1px solid black; padding: 5px; width: 15%;"> <table style="width: 100%; border-collapse: collapse;"> <tr><td style="border: 1px solid black; text-align: center;">15</td></tr> <tr><td style="border: 1px solid black; text-align: center;">9</td></tr> <tr><td style="border: 1px solid black; text-align: center;">?</td></tr> </table> </div> </div>	15	9	?	<div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Count the coins. Count them in twos.</p> </div> <div style="text-align: center;">  <p>Double the coins.</p> </div> </div>	<div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Share the cherries equally between 6 people 2 people 4 people</p> </div> <div style="border: 1px solid black; padding: 5px; width: 10%;"> <table style="width: 100%; border-collapse: collapse;"> <tr><td style="border: 1px solid black; text-align: center;">?</td></tr> <tr><td style="border: 1px solid black; text-align: center;">14</td></tr> <tr><td style="border: 1px solid black; text-align: center;">5</td></tr> </table> </div> <div style="border: 1px solid black; padding: 5px; width: 15%;"> <p>Joe had 17 marbles. He lost 9. How many does he have left?</p>  </div> </div>	?	14	5

10	Measurement: using standard units	Knows standardised units of measure and equipment for length, mass and capacity.	Knows how to compare a length, a mass, and a capacity in nonstandard units. Knows some measuring equipment.	Knows how to compare, describe and solve practical problems for length, mass and capacity.					
	<div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Which equipment for The mass of a bag of flour? The length of the wall? The liquid in the bucket?</p> </div> <div style="border: 1px solid blue; padding: 5px; background-color: #e6f2ff;"> <p>Knowing that cm are the same size on any ruler.</p>  </div> </div>	<p>Joy says:</p> <p style="text-align: center;"><i>Bigger things are heavier</i></p> <p>Do you agree or disagree with Joy? Why?</p> <p>You can use these balls to help you investigate.</p> <div style="text-align: center;">  </div>	<div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>The packet of seeds says that the sunflowers may grow to 2m high. How will you measure the sunflower?</p> </div> <div style="text-align: center;">  <p>How can you find out how many cups of tea can be poured from the teapot?</p> </div> </div> <div style="text-align: center; margin-top: 20px;">  <div style="border: 1px solid gray; padding: 5px; width: fit-content; margin-left: auto; margin-right: auto;"> <p>The mass of the cake is</p> <p>a) 2m b) 200 ml c) 2kg</p> </div> </div>
