

CLASS NEWS

Class 1

Happy New Year! Thank you once again for all the generous cards and gifts, and I hope you all enjoyed the Christmas break. It was lovely to welcome the children back to school, and they were all very excited to share their news.

We have already begun our new topic of '**Winter**' and the children have come up with a list of ideas and things they would like to find out about. Watch this space to see how we get on!

Outdoor learning sessions start next week, and a letter about appropriate, labelled clothing went home on Wednesday with the children. A copy of the letter can be found on the classroom window.

Class 2

Firstly, thank you very much for your good wishes and Christmas gifts. We hope you all enjoyed the Christmas holiday with your families and friends and that you are looking forward to the year ahead. It was lovely to begin the new term this week with almost everyone in school.

This term we will be starting a new topic on Weather and Seasons. There will also be a few changes to the timetable. Our sports coach sessions will now take place on Mondays, so please make sure that PE kits are in school. Forest School day will change to a Tuesday, but feel free to send in warm, waterproof clothing on Mondays if this works better for you. We will send the bags back home after our session for washing or drying!

We would like to take this opportunity to wish you all a very Happy New Year.

Class 3

Class 3 have been discussing things that we enjoyed doing during the Christmas break and writing about them using interesting descriptive vocabulary. We will be continuing work on length, area and perimeter in Maths.

We will be doing non-fiction reports in English. We will be finishing work on The Stone Age in History, and we have started a new topic on Water in Science.

Class 4

Happy New Year to you all! We have all had a lovely first few days back in school sharing our news about the festive season and discussing our New Year resolutions. We are beginning to learn about new topics including forces in Science and learning new commands and instructions in French. This term our focus is on Geography and we will be studying biomes around the world which will be extremely interesting. At the moment in Maths we are focusing on consolidating strategies linked to division and our new unit of work in English is based on creative writing.
